Dear Parents and Patients,

We are pleased to offer you the option to continue your medical care at New England Pediatrics after the age of 18 and/or after your graduation from high school. If you choose to continue your care with NEP these guidelines will apply:

- 1.) Once you reach your eighteenth birthday, you are legally considered an adult in regard to medical decisions and medical care, even if you are covered by a parent's insurance plan. Without your written consent, our doctors cannot discuss any aspects of your care with your parents. You will have to initiate all contact with us if there are questions or concerns. Alternatively, you may sign an 'Age 18 Consent to Release Patient Information' if you would like a parent or guardian to communicate with us on your behalf.
- 2.) Since college students spend about half of the year away at school and the other half in their home town, our physicians will be happy to see you for your medical care when you are local. We cannot help you with acute medical problems from a distance and encourage you to use your student health service resources. We will not be able to prescribe medication over the phone, or diagnose new medical problems without seeing you in person.
- 3.) If you are away at school and plan to continue medications we have prescribed for the treatment of chronic problems such as asthma, allergies, ADHD, etc., we must see you in person periodically if we are to renew these prescriptions. If a patient requires close monitoring, we may ask that you see a physician regularly near your school.
- 4.) Although we provide general medical care, we encourage our female patients to see a local gynecologist prior to going away to school. A list of recommended doctors is available.
- 5.) If you do not plan to continue with our practice after your eighteenth birthday, you should request your records at your last physical, or at the latest within six months after high school graduation. A list of local internists is available.
- 6.) If you do stay with our practice after age 18, we will expect you to transfer your records and future care to an internist and/or gynecologist before your 22nd birthday. Once you choose an internist, please request your records and allow one week for preparation. Each patient over eighteen must sign a specific records release form, and must retrieve their medical records in person, unless we have written permission for a parent or guardian to do so.
- 7.) I understand New England Pediatrics (NEP) may obtain my prescription history and preferred medications from a centralized database to assist in my care and I authorize NEP to do so.
- 8.) If you plan to remain a patient of New England Pediatrics, please sign this agreement to indicate you understand and agree to the foregoing terms.

I have read and understand the conditions presented above in regard to remaining a patient.

I hereby choose to continue as a patient of New England Pediatrics after my eighteenth birthday.

Please see the reverse side of this form for special disclosure information regarding Mental Health, Drug and-or Alcohol Abuse, and HIV-related information.

TO THE RECIPIENT OF THESE MATERIALS

HIV/AIDS INFORMATION: In the event that any of the disclosed information includes HIV/AIDS information, this is protected under state law as follows:

“This information has been disclosed to you from records whose confidentiality is protected by state law. State law prohibits you from making any further disclosure of it without the specific written consent of the person to whom it pertains, or as otherwise permitted by said law. A general authorization for the release of medical or other information is NOT sufficient for this purpose.” Any oral disclosure shall be accompanied or followed by the above notice. *See Connecticut General Statute section 19a-585.*

PSYCHIATRIC COMMUNICATIONS: If the released material contains confidential psychiatric communication, as designated in C.G.S. sections 52-146d through 52-146i, inclusive, please note the following:

“The confidentiality of this record is required under Chapter 899 of the Connecticut general statutes. This material shall not be transmitted to anyone without written consent or other authorization as provided in the aforementioned statutes.” A copy of the consent form setting forth any limitations shall accompany the disclosure.

DRUG & ALCOHOL TREATMENT: No person, hospital, treatment facility or department of health may disclose or permit the disclosure of the identity, diagnosis, prognosis or treatment of any patient in a treatment for drug and/or alcohol abuse that would be in violation of federal or state law. In the event that the records contain information regarding drug and/or alcohol abuse treatment, please note the following legal requirements and prohibitions:

“This information has been disclosed to you from records protected by federal and state confidentiality rules (42 C.F.R. Part 2). The federal rules prohibit you from making any further disclosure of this information unless further disclosure is expressly permitted by the written consent of the person to whom it pertains or as otherwise permitted by 42 CFR part 2. A general authorization for the release of medical or other information is NOT sufficient for this purpose. The federal rules restrict any use of the information to criminally investigate or prosecute any alcohol or drug abuse patient.” *See Connecticut General Statute section 17a-688.*
